» ANNEXURE TO THE NOTICE OF THE 41ST (FORTY-FIRST) ANNUAL GENERAL MEETING (AGM) OF FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 ("THE ACT"):

The Explanatory Statement in terms of the provisions of Section 102 of the Act, sets out all material facts relating to the Special Business mentioned in the accompanying Notice for convening the 41st (Forty-First) Annual General Meeting ("AGM") of Fynx Capital Limited (Formerly known as Rajath Finance Limited) on Tuesday, September 29, 2026, at 02.30 p.m. (IST):

ITEM NO. 3

The Members, at Annual General Meeting of the Company held on September 24, 2025 had approved the appointment of Mr. Shanker Raman Siddhanathan as Additional Director and further Managing Director of the Company and said appointment was effective from August 26, 2025 for period of 5 years along with terms and conditions of his appointment and remuneration.

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors at its meeting held on September 03, 2026 has proposed to revise the remuneration payable to Mr. Shanker Raman Siddhanathan, Managing Director, with effect from October 01, 2026, which will be valid for a period of 3 years.

The proposed revision in remuneration is being made considering the increased responsibilities entrusted to the Managing Director, his experience, contribution to the affairs of the Company, the nature and scale of operations of the Company and the prevailing remuneration structure for managerial personnel.

The Company has inadequate profits for the relevant financial year and, accordingly, the remuneration payable to the Managing Director is governed by Section 197(3) read with Part II, Section II of Schedule V to the Companies Act, 2013.

Except Mr. Ashok Kumar Mittal, the Director of the Company, being related party, none of the other Directors, Key Managerial Personnel or their relatives are, in anyway concerned or interested in the resolution set out at Item No 5.

It is further clarified that none of the Directors, KMPs and/ or their respective relatives is in any way, concerned or interested, financially or otherwise except for the said RPTs proposed to be entered, in the Resolution mentioned above.

The Board recommends the Ordinary Resolution as set forth in item no.5, for the approval of the Members.

ITEM NO. 6

In terms of the Regulation 17(6)(ca) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the approval of the Members by way of Special Resolution shall be required every year, in which the annual remuneration payable to a single non-executive director exceeds fifty per cent of the total annual remuneration payable to all non-executive directors.

The Shareholders at its Extra Ordinary General Meeting held on 11th December, 2025 had approved payment of Remuneration to Mr. Maheswar Sahu for the period of three years w.e.f November 07, 2025.

It is proposed to pay remuneration of Rs. 25,00,000 (Rupees Twenty-Five Lakhs only) p.a. for the Financial Year 2026-27 to Mr. Maheswar Sahu, Chairman and Non-Executive Non-Independent Director of the Company which will exceed the total remuneration payable to all Non-Executive Directors of the Company for the Financial Year 2026-27 and hence, the approval of Members is sought by way of a Special Resolution for payment of remuneration to Mr. Maheswar Sahu for the Financial Year 2026-27.

The requisite details and information of Mr. Maheswar Sahu, required under Secretarial Standards-2 on General Meetings issued by the Institute of Company Secretaries of India, are given in Annexure to this notice.

Mr. Maheswar Sahu is interested in the said resolution as it pertains to his own remuneration. None of the other Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No. 6 of the Notice.

The Directors recommend the Special Resolution as set out at Item No. 6 of the Notice for approval of the Members by way of a Special Resolution.

ITEM NO. 7

In terms of the provisions of Section 180(1)(c) of the Companies Act, 2013, the Board of Directors of a company can borrow money (apart from temporary loans obtained or to be obtained from the company's bankers in the ordinary course of business) only up to the aggregate of the paid-up share capital, free reserves, and securities premium of the company. To borrow beyond this limit, prior approval of the shareholders by way of a special resolution is required.

Considering the current and future business expansion and operational requirements, the Board of Directors of the Company proposes to enhance the overall borrowing limit to Rs 200 crores (Rupees Two Hundred Crores Only), subject to necessary approval from respective Regulatory Authorities, as and when required. This limit includes borrowings in Indian and/or foreign currencies from banks, financial institutions, corporate bodies, or other eligible lenders, and may exceed the existing limits under the Act.

This resolution will provide the Company flexibility in raising funds for ongoing and future financial needs, including working capital, capital expenditure, or strategic investments.

The approval sought is enabling in nature and would empower the Board to act as necessary in the best interest of the Company.

The Board recommends passing the resolution set out in Item No. 7 as a Special Resolution.

None of the Directors, Key Managerial Personnel, or their relatives is, in any way, concerned or interested, financially or otherwise, in the said resolution.

INFORMATION REQUIRED UNDER SECTION 197 OF THE COMPANIES ACT, 2013 READ WITH RULE 5(1) OF THE COMPANIES (APPOINTMENT AND REMUNERATION OF MANAGERIAL PERSONNEL) RULES, 2014

1. Ratio of Remuneration of each Director to the median remuneration of all the employees and details of percentage increase in the remuneration of Directors, Chief Financial Officer and Company Secretary in the financial year 2025-26 are as follows:

Name of Director and KMP	Designation	Remuneration of Directors/KMP for the year ended 31st March, 2026 (₹ In Lakhs)	Ratio to Median Remuneration	% increase in remuneration for the year ended 31st March, 2026
Mr. Shanker Raman Siddhanathan	Managing Director	53.3	7.4	NA (Refer Note iii)
Mr. Maheswar Sahu	Non-Executive Director & Chairman	7.92	1.1	NA (Refer Note v)
Mr. Ashok Kumar Mittal	Non-Executive Director	14	1.94	NA (Refer Note viii)
Mr. Ashok Kumar Nag	Independent Director	2.5	0.35	66.67%
Mrs. Vijaya Gupta	Independent Director	2.5	0.35	400.00%
Mrs. Anjali Sharma	Independent Director	2.5	0.35	400.00%
Mr. Sarat Malik	Independent Director	1.5	0.21	NA (Refer Note iv)
Mrs. Preeti Mhatre	Chief Financial Officer	32.56	4.52	NA (Refer Note ii)
Ms. Urvashi Manoj Parmar	Chief Financial Officer	-	-	NA (Refer Note i)
Mr. Akash Hirenbbhai Bheda	Company Secretary	10.04	1.39	19.83%

Note

(i) Ms. Urvashi Manoj Parmar resigned from the Post of Chief Financial Officer w.e.f. May 02, 2025

(ii) Mrs. Preeti Mhatre was appointed as Chief Financial Officer of the Company w.e.f. May 23, 2025.

(iii) Mr. Shanker Raman Siddhanathan was appointed as Managing Director w.e.f. August 26, 2025

(iv) Mr. Sarat Kumar Malik resigned as the Independent Director of the company w.e.f. October 31, 2025

(v) Mr. Maheswar Sahu was appointed as the Additional Director & Chairman w.e.f. November 07, 2025

(vi) For the purpose of the above ratio computation, the Median remuneration of employees (Rs. 7,19,813.50 for FY 2025-26) has been derived from the Gross Salary (Mar 2026 payroll cycle) of all 22 permanent employees on the rolls of the Company as on 31st March 2026, annualised on a run-rate basis. Remuneration/sitting fees of Non-Executive and Independent Directors, who are not on the Company's payroll, have been excluded from the employee median computation, consistent with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

(vii) The Median remuneration of employees for FY 2024-25 (Rs. 2,50,436) has been computed from the actual annual remuneration of the 9 permanent employees who were on the rolls of the Company at any point during FY 2024-25 (including Mrs. Preeti Mhatre, Ms. Urvashi Manoj Parmar and Mr. Akash Hirenghai Bheda in their KMP capacity). One temporary/contractual employee has been excluded from this base, consistent with the reference to "permanent employees" elsewhere in this Annexure. As the FY 2025-26 median is computed on an annualised monthly run-rate basis while the FY 2024-25 median reflects actual amounts paid during a year of significant headcount growth (9 to 22 employees), the resulting 187.42% increase in median employee remuneration should be read in that context.

(viii) FY 2024-25 remuneration for Mr. Ashok Kumar Mittal (Non-Executive Director) was not provided/paid; hence percentage increase in his remuneration is not ascertainable and is shown as NA.

2. The percentage increase in the median remuneration of employees in the financial year: 187.42% (FY25-26 over FY24-25)

3. The number of permanent employees on the rolls of company- 22 (Count) as on 31st March 2026

Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration- - Average percentile increase in salaries of employees other than managerial personnel is 6.35% whereas percentile increase in the managerial remuneration is 19.83%. The increase in remuneration is determined based on the performance by the employees of the Company.

Basis of the above percentile increase figures: Category 1 (Employees other than Managerial Personnel) covers the 6 employees who were on the rolls of the Company throughout parts of both FY 2024-25 and FY 2025-26; for those joining partway through FY 2024-25, the FY 2024-25 amount has been converted to an implied monthly rate (days employed ÷ 30) and compared with the March 2026 monthly salary, to avoid distortion from partial-year figures. New joiners in FY 2025-26 have no prior-year salary to compare and are therefore excluded.

Category 2 (Managerial Personnel – Managing Director, Chief Financial Officer, Company Secretary) reflects only Mr. Akash Hirenghai Bheda (Company Secretary), the sole managerial KMP with remuneration comparable across both years; Mr. Shanker Raman Siddhanathan (MD) and Mrs. Preeti Mhatre (CFO) are excluded as both were newly appointed/promoted during FY 2025-26 with no comparable FY 2024-25 figure, consistent with the '-' treatment applied to them in point 1 of this Annexure.

Category	Average % Increase in Remuneration
Category 1 - Employees other than Managerial Personnel	6.35%
Category 2 - Managerial Personnel	19.83%

4. We affirm that the remuneration paid during the year 2025-26 is as per the Remuneration Policy of the Company

Management Discussion and Analysis

ECONOMIC REVIEW

Global Economy.

The global economy demonstrated notable resilience through calendar year 2025, with growth estimated by the International Monetary Fund (IMF) at around 3.3%, supported by robust technology-related investment, accommodative financial conditions and strong productivity gains from the ongoing artificial intelligence (AI)-led technology cycle, even as elevated trade barriers and policy uncertainty persisted through the year. The front-loading of imports in the first half of the calendar year, coupled with the rapid reconfiguration of supply chains helped minimise disruptions. Moreover, the restraint exhibited by the rest of the world in maintaining an open trading system despite the imposition of tariffs, played a crucial role in averting a more pronounced economic downturn. Consequently, global growth is estimated at 3.4% in 2025. Larger than anticipated investments in AI and allied sectors surged to unprecedented levels, creating strong global spillover benefits and cushioning economies against headwinds from higher US tariffs.

A defining feature of 2025 was the divergence between advanced and emerging economies. Advanced economies grew at a subdued pace of 1.9%, weighed down by weak manufacturing activity, tighter credit conditions, and slower consumer demand. In contrast, emerging markets and developing economies maintained stronger momentum, expanding at 4.4%, supported by domestic demand, improving labour markets, and relatively resilient financial systems. Countries like India and parts of Southeast Asia continued to act as global growth engines. However, global trade growth remained at 5.1%, reflecting supply chain realignments, rising protectionism and a shift toward regionalisation. According to insights from the Press Information Bureau and policy commentary aligned with the Reserve Bank of India, these trends have also influenced capital flows and external sector dynamics for emerging economies, including India. From a macro-financial standpoint, elevated global debt levels continued to pose structural risks. The International Monetary Fund (IMF) estimates that global public debt remained above 90% of GDP, limiting fiscal space for many governments, especially in advanced economies. At the same time, tighter global liquidity conditions and higher borrowing costs increased vulnerabilities in highly leveraged sectors and emerging markets with external financing needs. Commodity markets remained volatile, particularly crude oil, where geopolitical developments caused intermittent price spikes, adding to inflationary pressures and impacting current account balances globally. Despite these headwinds, financial systems remained broadly stable, supported by strong bank capitalisation and regulatory oversight in major economies.

These global trends influence capital flows, funding costs, and risk appetite in emerging markets, including India.

This momentum was tested in early 2026 by the outbreak of armed conflict in the Middle East, which triggered the sharpest global energy price shock since the Russia-Ukraine war of 2022. Disruption to shipping through the Strait of Hormuz, which handles approximately 35% of global seaborne crude oil trade, together with attacks on regional energy infrastructure, pushed Brent crude prices above USD 100 per barrel at their peak, before moderating following a ceasefire announced in April 2026. The World Bank's April 2026 Commodity Markets Outlook projected energy prices to rise by around 24% for the year, with Brent averaging close to USD 86 per barrel in 2026, the highest level since 2022, with attendant pressure on food and fertiliser prices, particularly across emerging and developing economies. In its July 2026 World Economic Outlook Update, the IMF accordingly revised global growth for 2026 down to 3.0% (from a pre-conflict estimate of 3.4%), with a recovery to 3.4% projected for 2027 as disruptions fade, assuming the conflict remains contained in duration and scope.

The impact of the shock has been uneven across economies. Countries more dependent on imports of Middle Eastern oil, gas and fertiliser, along with several emerging markets where agriculture forms a larger share of output, have faced the sharpest terms-of-trade deterioration, while some energy exporters outside the conflict zone have benefited from firmer prices. In the Middle East and Central Asia, growth is expected to decline sharply from 3.6% in 2025 to 1.9% in 2026, before rebounding to 4.6% in 2027 as the region absorbs the immediate impact of the conflict and subsequently recovers.

China's economy grew by approximately 5% in calendar year 2025, aided by a record trade surplus of nearly USD 1.2 trillion as exporters diversified toward non-US markets amid US tariff actions, even as domestic demand remained constrained by a prolonged property sector correction, deflationary pressure and demographic headwinds. Growth in China is projected to moderate to around 4.5% in 2026, with policymakers favouring calibrated monetary and fiscal support over broad-based stimulus, while prioritising a structural pivot toward consumption and high-technology manufacturing under the 15th Five-Year Plan (2026-30).

In Europe, growth remains modest and is being weighed down by the energy shock emanating from West Asia, even as Germany's EUR 500 billion off-budget infrastructure fund continues to provide a medium-term structural tailwind for the region. Global trade patterns continue to reorient around tariff and geopolitical realignments; however, trade in services, including IT outsourcing, where India continues to hold a strong competitive position, has remained comparatively more resilient than goods trade. Growth in the euro area is projected to ease from 1.4% in 2025 to 1.1% in 2026, before inching up to 1.2% in 2027.

Global inflation is expected to temporarily stall its downward trajectory, rising from 4.1% in 2025 to 4.4% in 2026, before easing to 3.7% in 2027. Overall, risks remain skewed to the downside. While growth could surprise on the upside if tailwinds such as AI-led investment remain stronger than anticipated or financial conditions stay supportive, these benefits may prove transitory. These are likely to be outweighed by downside risks stemming from the ongoing conflict. Over the medium-term, risks remain elevated, including potential resource misallocation driven by AI exuberance and the persistence of policies that could exacerbate real, fiscal, and financial vulnerabilities, potentially amplified through financial market channels¹

Against this backdrop, India has remained one of the more resilient large economies globally, supported by strong domestic consumption, a large and rapidly digitalising economy, and comparatively contained direct exposure to the Middle East conflict relative to several trading peers, although, as a large net oil importer, India is not fully insulated from the pass-through of higher global crude prices to its trade balance, currency and inflation trajectory.

Indian Economy

India's economy sustained a resilient growth trajectory through FY 2025-26. Against the Economic Survey 2025-26's initial estimate of GDP growth in the range of 6.3-6.8% for the year, actual momentum surprised meaningfully on the upside, with real GDP growing at a six-quarter high of 8.2% in Q2 FY 2025-26, supported by resilient private consumption, the rationalisation of income tax and GST rates under 'GST 2.0', softer crude oil prices for much of the first half, sustained government capital expenditure, and a favourable monsoon. High-frequency indicators, including GST collections (averaging Rupees 1.7-1.8 Lakh Crore per month) and e-way bill generation reflected sustained economic activity and formalisation. The Reserve Bank of India (RBI) progressively revised its full-year GDP growth forecast for FY 2025-26 upward over the course of the year, from an initial 6.5% to 7.3% in December 2025, and further to 7.4% at its February 2026 policy review.

Inflation eased sharply through the year: headline Consumer Price Index (CPI) inflation touched an eight-year low of 1.6% in July 2025, comfortably within the RBI's target band, aided by benign food and core inflation. This combination of strong growth and low inflation, described by RBI Governor Sanjay Malhotra as a rare 'Goldilocks' period for the Indian economy, enabled the Monetary Policy Committee (MPC) to cut the repo rate through the year, from 6.50% to 5.25% by December 2025,

complemented by a reduction in the Cash Reserve Ratio to support banking system liquidity. The MPC subsequently held the repo rate steady through the first half of calendar 2026 as it turned watchful of imported inflation risk stemming from the global energy shock. At its June 2026 review, the MPC kept the repo rate unchanged at 5.25% with a neutral stance, while revising its FY 2026-27 GDP growth forecast down to 6.6% (from 6.9% projected in April 2026) and raising its inflation forecast to 5.1% (from 4.6%), citing the impact of the West Asia conflict, elevated crude oil prices, and monsoon-related uncertainty.

On the external front, India's merchandise trade deficit widened to approximately USD 333 billion in FY 2025-26 (from about USD 283 billion in FY 2024-25), as import growth of around 7.6% outpaced export growth of under 1%, reflecting subdued global demand and elevated energy import costs. A robust services trade surplus and steady private remittance inflows, however, helped keep the current account deficit contained to around 1.0% of GDP over April-December 2025. The rupee traded with a depreciating bias for parts of the year amid geopolitical tensions and episodic Foreign Portfolio Investment (FPI) outflows, even as India's foreign exchange reserves remained robust at approximately USD 691 billion as at end-March 2026 (as per the RBI's Annual Report 2025-26), providing import cover of around 11 months and a comfortable buffer against external volatility.

Looking ahead to FY 2026-27, India is expected to remain among the fastest-growing large economies globally, supported by resilient consumption, sustained government capital expenditure, healthy capacity utilisation in manufacturing, and continued digitalisation across financial services. A report jointly published by the National Payments Corporation of India (NPCI) and Boston Consulting Group (BCG) at the Global Fintech Fest 2025 notes that India's Unified Payments Interface (UPI) now facilitates over 20 billion transactions each month, accounting for 84% of India's digital retail payments, underscoring the structural role of India's digital public infrastructure in supporting the next phase of formal credit penetration. The principal risks to this outlook remain external in nature: the trajectory and duration of the Middle East conflict and its bearing on global energy prices, ongoing geopolitical fragmentation, evolving US tariff and trade policy, and the potential for renewed global financial market volatility.

Industry Overview

Credit scenario in India

India's credit landscape reflects a significant structural growth opportunity, supported by low penetration levels and evolving financial inclusion. As of December 2025, household credit-to-GDP stood at 47.8%, significantly lower than China, the United States, and the United Kingdom. Similarly, India's overall credit-to-GDP ratio at 93% remains well below global benchmarks, indicating substantial headroom for expansion. This gap is being steadily bridged through rising financial awareness, policy-led inclusion initiatives, and improved access to formal credit, particularly for underserved segments. Retail lending has consistently outpaced non-retail segments, supported by strong demand for housing, personal loans, and consumption-led financing. Retail credit now accounts for a substantial and rising share of overall system credit (estimated 40-45%), reflecting a gradual rebalancing of the credit mix towards individuals and households. Growth has been broad-based, with increased traction in MSME financing, alongside rising adoption of personal loans, gold loans, and other retail products. Looking ahead, systemic credit is expected to grow at a healthy pace supported by continued digitization, deeper financial penetration, and targeted lending strategies by banks and NBFCs. Overall, India's credit ecosystem is poised for sustained expansion, with retail credit playing an increasingly pivotal role in shaping the future trajectory.

MSME financing remains a core structural growth driver, accounting for approximately 22% of total NBFC credit outstanding in FY25. This segment is projected to grow at a strong pace of 20% in FY26, driven by increasing adoption of loans against property, enhanced policy support, and improving credit penetration. NBFCs are uniquely positioned to serve MSMEs, which often face constraints in accessing formal credit due to limited collateral, lack of formal documentation, or thin credit histories. Corporate and commercial real estate lending is expected to witness a moderate uptick, while infrastructure financing may see some moderation due to higher repayments, declining repo rates, and the completion of certain large-scale government programmes. A defining characteristic of the NBFC sector is its complementary role to the banking system. While banks continue to dominate the financial landscape, their retail loan portfolio accounted for around 40-45% of total credit as of FY25, with a greater focus on large corporates, agriculture, and services. In comparison, NBFCs exhibit a relatively stronger retail orientation, with nearly half of their portfolios dedicated to retail lending.

Non-Banking Financial Companies (NBFCs) remain a vital pillar of India's financial system, playing a critical role in deepening credit penetration and advancing financial inclusion, particularly across underserved semi-urban and rural markets, where their agility, localised understanding of borrower segments and technology-enabled underwriting continue to differentiate them from traditional banks. NBFCs have consistently recorded credit growth outpacing that of scheduled commercial banks (SCBs) in recent years, reflecting their growing systemic importance. The growth outlook for NBFCs is supported by India's strong economic fundamentals. Following a strong double-digit credit growth in FY25, NBFCs are expected to sustain momentum, with overall credit growth projected at approximately 17-18% over the next two years.

Overall NBFC credit stood at approximately Rs. 52 lakh crores in December 2024 and was set to exceed Rs. 60 lakh crores in FY 2025-26, with retail assets, which accounted for 58% of overall NBFC credit as of December 2024, being the key growth driver.

Looking ahead overall NBFC AUM (including housing finance companies, excluding government-owned NBFCs) to grow 18-19% over FY 2025-26 and FY 2026-27, crossing Rs. 50 lakh crores by March 2027. Growth is expected to vary meaningfully by segment: Loans against property/secured MSME growth of 26-27%, personal loans of 22-25% (recovering from a slowdown to 18% in FY 2024-25, vehicle finance of 16-17%, unsecured MSME business loans of 13-14% and home loans of 12-13%.

Regulatory and Market Dynamics for NBFC's

Regulatory oversight of the NBFC sector continued to evolve meaningfully during FY 2025-26. The RBI's Scale-Based Regulation (SBR) framework, which classifies NBFCs into layers based on size, activity and systemic importance, with progressively more stringent governance, capital and disclosure requirements applying as scale increases, is set out in the RBI (Non-Banking Financial Companies - Registration, Exemptions and Framework for Scale Based Regulation) Directions, 2025. The RBI released a draft amendment to this framework on February 10, 2026 (initially proposed to take effect April 1, 2026) and subsequently notified the final RBI (Non-Banking Financial Companies - Registration, Exemptions and Framework for Scale Based Regulation) Amendment Directions, 2026 on April 29, 2026, which are confirmed to come into force on July 1, 2026. These final amendments introduce a new 'Unregistered Type I NBFC' exemption for entities that neither access public funds nor have customer interface (subject to an asset-size threshold of Rs. 1,000 crores, aggregated at the group level), and provide a structured deregistration pathway for eligible existing NBFCs, with applications to be made by December 31, 2026.

The RBI has continued to emphasise prudent lending practices, particularly in unsecured loan segments, following a series of supervisory actions against certain NBFCs and digital lenders over the preceding two years, reinforcing the need for entities across the sector to strengthen risk assessment frameworks, financial prudence and compliance culture. On funding costs, ICRA's July 2025 sector update estimated the funding requirement for the NBFC-Retail segment at Rs. 3.4-3.5 lakh crore for FY 2025-26 and projected the sector's weighted average cost of funds to reduce by 10-30 basis points during the year as systemic liquidity conditions improve and monetary policy transmission continues, even as incremental bank credit to the sector remained constrained (bank lending to NBFCs stood at approximately Rs. 13.8 lakh crore as of September 2025, per CRISIL Ratings, only marginally above year-earlier levels). This underscores the continued importance of NBFCs diversifying funding sources toward capital markets, external commercial borrowings and co-lending partnerships with banks, rather than relying solely on direct bank funding. Competitive intensity from banks and fintech players continues to increase; however, NBFCs' differentiated reach, underwriting agility and long-standing customer relationships in underserved segments continue to support their relevance within India's broader credit ecosystem.

➤ **Technological Advancements and Emerging opportunities for NBFC's**

Digital transformation remains a defining growth enabler for the sector. The adoption of AI-driven credit assessment, alternative-data underwriting, including analysis of UPI transaction trails, GST filings and digital payment footprints, and end-to-end digital lending platforms continues to expand access to credit for borrower segments, such as gig workers, MSMEs and 'thin-file' consumers, that have historically been underserved by conventional, documentation-heavy underwriting models. Co-lending partnerships between NBFCs and banks, along with sustained Foreign Direct Investment (FDI) interest in the sector, continue to provide access to lower-cost capital and to strengthen balance sheets across the industry.

The Government's continued push for financial inclusion, including the Pradhan Mantri Jan Dhan Yojana (PMJDY), Pradhan Mantri Mudra Yojana, and the rapidly expanding Unified Payments Interface (UPI) ecosystem, which now processes over 20 billion transactions a month, continues to widen the addressable market for formal credit across India. NBFCs that combine disciplined risk management with technology-led origination, underwriting and collections are expected to be best positioned to capture sustainable, profitable growth within this evolving landscape.

MAJOR SEGMENTS – MSME's

Micro, Small and Medium Enterprises (MSMEs)

The Indian MSME sector continued to exhibit strong growth during FY 2025-26, supported by favourable government policy, rising exports and improving access to institutional credit. As per the Ministry of MSME, over 7.83 crore enterprises were registered on the Udyam Registration Portal and Udyam Assist Platform as of February 28, 2026, up sharply from 0.79 crore in FY 2021-22, reflecting continued formalisation of the sector. MSME exports have grown from Rs. 3.95 Lakh Crores in CY 2021 to Rs. 12.39 Lakh Crores in CY 2025, with the number of exporting MSMEs rising to over 1.73 lakh, underscoring their expanding role in India's external trade. The micro, small and medium enterprises (MSME) lending landscape in India has undergone a notable transformation in recent years, driven by a combination of policy support, technological advancement, and evolving lender strategies. Both banks and NBFCs have sharpened their focus on this segment, recognising its critical role in driving economic growth, employment, and entrepreneurship. Government initiatives, most notably the Pradhan Mantri Mudra Yojana, have significantly improved access to formal credit, particularly for micro and small enterprises that were historically underserved.

Per the Union Budget 2026-27, MSMEs now account for approximately 31.1% of India's GDP, 48.58% of the country's exports and 35.4% of manufacturing output, while employing over 32.8 crore persons, making the sector the second-largest employer in India after agriculture. The Budget introduced further measures to strengthen MSME access to credit, including mandatory TReDS settlement for CPSE purchases, CGTMSE-backed invoice discounting, integration of GeM with TReDS, and securitisation of TReDS receivables, alongside an enhanced Credit Guarantee Scheme ceiling (raised from Rs. 5 Crore to Rs. 10 Crore with effect from April 2025) and an additional Rs. 2,000 Crore allocation to the Self-Reliant India (SRI) Fund. Continued digitalisation, with over 72% of MSME transactions now digital, along with expanding priority sector lending access via the Udyam Assist Platform, is expected to further support the sector's formal credit uptake in the coming year.

The rise of fintech players has further accelerated this transformation. By offering tailored, technology enabled lending solutions with faster turnaround times, fintechs have enhanced competition and improved access to timely and affordable credit for MSMEs. As a result, businesses have been better equipped to manage working capital, invest in expansion, and improve operational efficiency, contributing meaningfully to broader economic development.

Going forward, NBFCs are expected to maintain strong momentum, with MSME lending projected to grow at a CAGR of 19-21% over FY26 and FY27. Secured lending, particularly in the form of loan against property, is expected to remain a key growth driver as lenders adopt a more cautious stance towards unsecured business loans. Concerns around borrower overleveraging and early signs of stress in small-ticket unsecured segments have prompted NBFCs to tighten underwriting standards and strengthen collection mechanisms. Overall, the MSME lending ecosystem is evolving towards a more balanced, data-driven, and inclusive model, positioning it as a cornerstone of India's next phase of economic growth

Gig Economy and the Emerging 'Gig Cash' Opportunity

India's gig and platform economy has emerged as one of the fastest-growing segments of the domestic labour market and represents a meaningful emerging adjacency for retail and MSME-focused NBFCs such as the Company. As per the Economic Survey 2025-26, India's gig workforce expanded from approximately 7.7 million in FY 2020-21 to around 12 million by FY 2025, a 55% increase over four years, and NITI Aayog projects this workforce will grow further to approximately 23.5 million by FY 2029-30, contributing an estimated Rs. 2.35 Lakh Crore to GDP and forming close to 6.7% of India's non-agricultural workforce. This growth continues to be driven by rising e-commerce and quick-commerce penetration, over 800 million smartphone users nationally, and a generational shift toward flexible work arrangements.

At the same time, the Economic Survey 2025-26 has flagged significant structural gaps underlying this growth: income volatility among gig workers remains high, with approximately 40% reporting monthly earnings below Rs. 15,000, and financial inclusion continues to lag, with most gig workers characterised by 'thin-file' credit histories that constrain their access to conventional bank and NBFC credit. India's Code on Social Security, 2020, which came into force alongside the other labour codes from November 21, 2025, has for the first time formally recognised gig and platform workers and proposed an aggregator-funded welfare contribution; however, operational rules remain a work in progress, even as several States, including Rajasthan, Karnataka, Bihar and Jharkhand, have separately enacted their own gig worker welfare legislation.

This combination of a large, fast-growing, digitally native but structurally underserved borrower base represents a meaningful emerging opportunity for the Company. Products in the 'Gig Cash' space, encompassing short-tenor, small-ticket working capital advances, earned-wage-access-style liquidity solutions, and alternative-data-based unsecured credit lines underwritten on platform earnings trails such as UPI credit history and ride/delivery payout patterns rather than traditional salary documentation, are increasingly being extended by NBFCs and digital lending platforms to delivery partners, ride-hailing drivers and platform-based freelancers, typically in ticket sizes of Rs. 50,000 to Rs. 5 Lakh, with fully digital, near-instant disbursal. Industry experience to date indicates that gig worker income, while volatile, is traceable through digital payout data and can be underwritten responsibly using bank-statement and platform-earnings analytics.

For the Company, calibrated participation in this space, through robust alternative-data credit models, conservative ticket-sizing, and close monitoring of repayment behaviour, offers a differentiated avenue for portfolio diversification and financial-inclusion-led growth, complementing its existing MSME and retail/consumer lending franchise. This remains an early-stage growth opportunity being explored by the Company, and any expansion into this segment will be undertaken with due regard to the inherent income volatility of gig worker borrowers and the still-evolving regulatory framework governing gig and platform worker protections in India.

Personal Loan

Personal loans have emerged as a primary driver of retail credit expansion, supported by digitalisation and changing consumption patterns. The overall outstanding personal loan book increased from approximately Rupees 6 trillion in FY21 to about Rupees 14 trillion in FY25, registering a robust CAGR of around 23%. This growth has been underpinned by the rise of new-age lenders, expanding geographic reach beyond metro markets, and a broader structural shift towards a consumption-led economy.

The segment experienced a phase of heightened momentum during FY23 and the first half of FY24, as both banks and NBFCs increasingly prioritised retail lending over wholesale exposures. Several factors contributed to this trend, including the granular nature of retail portfolios, which helped mitigate concentration risks, as well as legacy asset quality concerns in wholesale lending

In addition, rapid digitisation enabled lenders to scale efficiently, while improving economic conditions CAGR (FY21 – FY25): 20% and stabilising incomes post-pandemic supported consumer borrowing. Changing consumption patterns further accelerated demand, particularly for discretionary spending.

The personal loans market has become increasingly competitive, with both banks and NBFCs vying for market share. Banks currently dominate the segment, supported by lower cost of funds, extensive distribution networks, and established customer relationships. However, NBFCs and fintech players have carved out a niche by serving customers with limited or no credit history, often through innovative and flexible products. These include short-tenure loans, embedded finance solutions such as checkout financing, and partnerships with digital platforms and card issuers. Smaller NBFCs and fintechs have been particularly agile, offering customised products such as pay-as-you-go financing and micro personal loans with tenures as short as three to six months. While these loans carry relatively higher interest rates to compensate for risk, they have enabled lenders to remain competitive and relevant, even among salaried customers. Additionally, cross-selling to existing borrowers with proven repayment track records has emerged as a key strategy for managing risk while sustaining growth. NBFCs have outpaced banks in terms of growth in recent years, driven by their specialised focus, deeper penetration in semi-urban and rural markets, and strong adoption of digital channels. Investments in digital infrastructure have enabled faster customer acquisition, lower operating costs, and improved customer experience. This was evident in FY24, when NBFCs recorded a significant year-on-year growth in personal loans, supported by digital platforms and aggressive expansion strategies. Between FY21 and FY25, the personal loan portfolio of NBFCs grew at a CAGR of approximately 37%, significantly higher than the overall industry growth.

» Outlook

Subject to the forward-looking-statement qualifications set out in the Cautionary Statements section of this Report, the Company's near-term outlook is shaped by the following externally-sourced, cited factors: (i) India's GDP growth is expected to remain among the strongest of major economies, with the RBI's most recent published projection (June 2026 policy review) for FY 2026-27 at 6.6%, moderated from an earlier 6.9% estimate due to the Middle East conflict's impact on energy prices; (ii) the NBFC-Retail sector is projected to grow at a moderated 16-18% in FY 2025-26 (iii) the MSME and gig/platform-worker segments continue to be flagged by the Union Budget 2026-27 and Economic Survey 2025-26 respectively as priority areas for formal credit expansion, which the Company views as consistent with its existing retail/consumer and MSME lending focus and its emerging interest in the 'Gig Cash' space.

» Performance

During the year under the Report, the Company recorded total revenue from operations of Rs. 505.68 (In Lakhs) in FY 2025-26, as compared to Rs. 1.64 (In Lakhs) in FY 2024-25. A major part of the revenue of the Company is generated through interest income.

During the year under review, the Company recorded a net loss of Rs. 337.89 (In Lakhs) in FY 2025-26, as compared to the net loss of Rs. 249.11 (In Lakhs) during the previous FY 2024-25. Management of the Company continues to make focused efforts to strengthen profitability through disciplined portfolio growth, prudent underwriting and operational efficiency.

» SWOT ANALYSIS

A. Strengths and Weaknesses

- **Market Leadership:** Strong Team in the domain of Lending operations, with a strong technological setup in SCF lending and personal finance solutions.
- **Customer-Centric Model:** A deep-rooted understanding of client needs, founded on trust and sustained relationships.
- **Strong Asset Quality & AUM Growth:** An asset book that is rigorously managed, demonstrating consistent growth in AUM and strategic risk management practices.
- **Technology-Driven Lending:** Leveraging advanced technological capabilities, including data analytics, AI, and digital lending platforms, to optimize customer acquisition and credit risk assessment.

Weaknesses

Limited Global Presence: In contrast to some of its competitors, FynX Capital's Finance operations are largely confined to the domestic market, constraining its prospects for international expansion.

B. Opportunities and Threats Opportunities

- **Financial Inclusion Growth:** Broadening access to credit in underpenetrated Gig Workers holds significant potential for driving business growth and fostering economic upliftment. This is an emerging growth area being explored by the Company, as discussed under 'Gig Cash' above.
- **Rising Demand for MSME Financing:** The rapid expansion of India's MSME sector, backed by Union Budget 2026-27 measures, presents significant opportunities for targeted financial lending and industry-specific solutions.
- **Digital Transformation:** Enhanced fintech collaborations, AI-driven lending models, and mobile-based customer engagement platforms are poised to boost operational efficiency and broaden customer outreach.
- **Expanding Product Portfolio:** Introducing innovative financial products like unsecured loans, comprehensive insurance packages, and dynamic working capital solutions, including gig-worker-focused offerings, will substantially enrich revenue streams and enhance market presence.

Threats

- **Regulatory Changes:** Continued evolution of the RBI's Scale-Based Regulation framework and related NBFC directions could significantly impact operational dynamics and increase compliance-related expenditure.
- **Global Macro and Geopolitical Risk:** The ongoing Middle East conflict and associated volatility in global crude oil prices, along with evolving global tariff and trade policy, pose indirect risks to India's growth, inflation and interest rate trajectory.
- **Interest Rate Volatility:** A reversal in the current benign interest rate environment may result in increased borrowing costs, thereby adversely affecting lending profitability and the overall cost structure.
- **Competition from Banks & Fintechs:** Growing competition from traditional banking institutions, digital lenders, and fintech players could potentially undermine market share and pressure margins.
- **Macroeconomic Slowdowns:** A broad economic slowdown, especially in sectors like transportation and MSMEs, could lead to higher NPAs.

- **Credit Risk & NPA Management:** Effectively managing credit risk and addressing the challenges of non-performing assets remain a key factor for sustainability and stability in a turbulent economic climate, including in emerging borrower segments such as gig workers.
- **Internal Control System:** The Company has designed and implemented proper and adequate systems of internal control to ensure that all assets are safeguarded and protected against loss from any unauthorized use or disposition and all transactions are authorised, recorded and reported correctly. The System ensures appropriate information flow to facilitate effective monitoring. The internal audit system also ensures formation and implementation of corporate policies for financial reporting, accounting, and information security.

➤ **Risk Management and Compliance**

As company is not a part of the top thousand entity based on Market Capitalization as list out by the Stock exchange, therefore the constitution of the Risk Management Committee is not applicable to the company. The Company ensures compliance with all applicable laws and changes in the law and applicable regulations including Company laws, SEBI Act and regulations, BSE Listing regulations, employment and immigration, taxation, health safety and environment, data privacy, anti-bribery and anti-corruption regulations. As in the case of any lending entity, the entire proposition of the Company – providing finance to various segments of the economy is on the fundamentals of managing the risk rather than avoiding it. With tried and tested credit models and robust operational systems in place, the Company successfully manages these risks.

➤ **Cautionary Statements**

All statements made in Management and Discussion Analysis has been made in good faith. Many unforeseen and unexpected factors may come into play and affect the actual results, which could be different from what the Management envisages in terms of performance and outlook. Market data, industry information etc. contained in this Report have been based on information gathered from various published and unpublished reports and their accuracy, reliability, and completeness cannot be assured.

Factors such as economic conditions affecting demand/supply and priced conditions in domestic & international markets in which the Company operates, and changes in Government regulations, tax laws, other statutes and other incidental factors, may affect the final results and performance of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of FYNX CAPITAL LIMITED (Formerly Known as Rajath Finance Limited)

Report on the Audit of the Financial Statements

Auditor's Opinion

We have audited the accompanying financial statements of **FYNX CAPITAL LIMITED (Formerly Known as Rajath Finance Limited)** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of Matter

The Company has accumulated losses resulting in negative reserves of ₹412.36 Lakhs as at 31 March 2026. The Company's ability to continue as a going concern is dependent on continued growth and maintenance of credit quality of the loan portfolio and timely servicing of the its borrowings. The management of the Company is of the view that it will be able to meet its obligations having regard to the business plan and projected cash flows.

Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matter	How Our Audit Addressed This Matter
1. The current year marks the first full year of active lending operations for the Company with significant scale-up in the loan portfolio. Given the pace of growth, we identified the following as areas of heightened audit risk: (a) completeness and accuracy of interest income recognition; (b) appropriateness of ECL provisioning on a newly originated portfolio (c) accuracy of Direct Selling Agent ("DSA") commission accruals. Since loan tenures are less than 12 months, origination costs are expensed as incurred, which is consistent with the Company's accounting policy.	We tested interest income on a sample basis by recomputing interest accruals against loan agreements, disbursement dates, and outstanding balances. We assessed the ECL model for adequacy and reviewed the stage classification of loans. We verified Direct Selling Agent ("DSA") commission accruals and payouts as per the DSA agreements. No material misstatements were identified.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in Management Discussion and Analysis, Board's Report and Annexure to Board's Report, Business Responsibility Report and Shareholder's Information but does not include financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statement

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including total comprehensive income, changes in equity and cash flows of the Company in accordance with the IND AS and other accounting principles generally accepted in India, including the accounting Standards (IND AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work in evaluating the results of our work (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial Statements of the current period and are therefore the Key Audit Matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those

(c) The Financial statements dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

(e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls with reference to financial statements.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended: In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.

ii. The Company has not entered into any long-term contracts including derivative contracts, hence provision, as required under the applicable law or accounting standard, for material foreseeable losses has not been made.

iii. There is no delay in transferring amounts, required to be transferred to Investors Education Funds by the Company, as required by the provisions of sub section (2) of Section 125 of the Companies Act, 2013.

iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 28 to the Financial Statements, no funds (which are material either individually or in aggregate) have been advanced to or received from any director or officer of the Company or any body corporate in which a director or officer of the Company has a substantial interest, for the purpose of the provision of Section 188(1)(g) of the Companies Act, 2013.

the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. Based on our examination which included test checks and in accordance with requirements of the Implementation Guide on Reporting on Audit Trail under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, the Company has used accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 & 4 of the Order.

ANNEXURE A

(Refer to paragraph 1(f) under 'Report on Other and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the financial statements of **FYNX CAPITAL LIMITED (Formerly Known as Rajath Finance Limited)** ("the Company") as of March 31, 2026, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls with reference to the financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to the financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to the financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to the financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to the financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B

Annexure to Independent Auditors' Report for the year ended March 31, 2026

(Referred to in Paragraph 2 under the Heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date)

To the best of our information and according to the explanation provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

(i) In respect of Company's Property, Plant and Equipment, Right-of-Use Assets and Intangible Assets

- (a) (1) The Company has maintained proper records showing full details including quantitative details and the situation of Property, Plant and Equipment and relevant right-of-use assets, showing full details including quantitative details and the situation of Property, Plant and Equipment and relevant right-of-use assets.
- (2) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular program of physical verification of Property, Plant and Equipment by the management in a phased periodical manner over a period of three years, which in our opinion is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain Property, Plant and Equipment were verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed in such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties which are disclosed in financial statements (other than properties where the company is the lessee and the lease agreements are duly executed in favor of the lessee) are held in the name of the company.
- (d) According to the information and explanations given to us and on the basis of our examination of the record of the company, the Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
- (e) According to the information and explanation given to us and on the basis of our examination of the record of the company, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) Inventories

- (a) The Company does not have any inventory, hence physical verification of inventory and reporting under paragraph 3(ii) (a) of the Order is not required.
- (b) The Company does not have any sanctioned amount for working capital requirement, hence reporting under paragraph 3(ii) (b) of the Order is not applicable.

(iii) Loans given

- (a) The Company's principal business is to give loans. Accordingly, the provision of clause 3(iii)(a) of the Order is not applicable to it.
- (b) The Company, being a Non-Banking Financial Company ('NBFC'), registered under provisions of RBI Act, 1934, in our opinion, and according to the information and explanations given to us, the investments made, and the terms and conditions of the grant of loans and advances in the nature of loans given are not prejudicial to the Company's interest.
- (c) The Company, being a NBFC, registered under provisions of RBI Act, 1934 and rules made thereunder, in pursuance of its compliance with provisions of the said Act/Rules, particularly, the Income Recognition, Asset Classification and Provisioning Norms, monitors repayments of principal and payment of interest by its customers as stipulated. In our opinion and according to the information and explanations given to us, in respect of loans and advances in the nature of loans, the schedule of repayment of principal and payment of interest has been stipulated and in cases where repayment of principal and payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in course of its periodic regulatory reporting. Refer note 32(b) to the Financial Statements for summarized details of such loans/advances.
- (d) The Company, being a NBFC, registered under provisions of RBI Act, 1934 and rules made thereunder, in pursuance of its compliance with provisions of the said Act/Rules, particularly, the Income Recognition, Asset Classification and Provisioning Norms, monitors and reports total amount overdue including principal and/or payment of interest by its customers for more than 90 days. In cases where repayment of principal and payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in course of its periodic regulatory reporting. Refer note 32(b) to the Financial Statements for summarized details of such loans/advances.
- (e) Since the Company's principal business is to give loans, the provision of clause 3(iii)(e) of the Order is not applicable to it.
- (f) Based on our audit procedure and according to the information and explanation made available to us, the Company has not granted any loans or advances in the nature of loans to Promoters/Related Parties (as defined in section 2(76) of the Act) which are either repayable on demand or without specifying any terms or period of repayment.

(iv) Compliance of section 185 & 186

In our opinion and according to the information and explanations given to us, the Company has not granted any loans, made investments or provided guarantees in contravention of the provisions of sections 185 and 186(1) of the Act. In terms of Section 186(11) of the Act, the provisions of Section 186 (other than sub-section 1) are not applicable to the Company, as it is a Non-Banking Financial Company engaged in the business of lending/financing as its principal business.

(v) Public Deposit

In our opinion and according to the information and explanations given to us, the Company being a NBFC registered with the Reserve Bank of India, the provisions of sections 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposits) Rules, 2014, as amended, with regard to the deposits accepted are not applicable to the Company. We are informed by the Management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal on the Company in respect of the aforesaid deposits.

(vi) Cost Records

The Company is not required to maintain cost records under Section 148(1) of the Companies Act, 2013 read with Companies (Cost Records and Audit) Rules, 2014 and hence reporting under paragraph 3(vi) of the Order is not applicable to the Company.

(vii) Statutory Dues

Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities in all cases during the year.

(viii) Undisclosed Income

There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) Borrowings

- (a) Based on our audit procedure and according to the information and explanation given to us, we are of the opinion that the Company has not defaulted in repayment of dues to a bank or financial institutions.
- (b) According to the information and explanations given to by the Company, we report that the Company has not been declared as wilful defaulter by any Bank or Financial Institution.

- (c) According to the information and explanations given to us, and on the basis of overall examination of financial statements of the company, in our opinion term loans taken during the year was applied for the purpose for which they were obtained.
- (d) According to the information and explanations given to us, the Company has not utilized funds raised on short term basis for long term purpose.
- (e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.
- (f) The Company has not raised any loans during the year on pledge of securities held in its subsidiaries, joint venture or associate companies and hence reporting under clause 3(ix)(f) of the Order is not applicable.

(x) Issue of Securities

- (a) According to the information and explanations given to us, the Company had not raised any money by way of public issue during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

(xi) Fraud

- (a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given by the management, we report that no fraud by the Company or any fraud on the company by its officers or employees has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) As represented to us by the Management, no complaints were received from whistle blower by the Company during the year and up to the date of this report.

(xii) Nidhi Company

The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) Related Parties

According to the records examined by us, and information and explanations given to us, transactions with the related parties are in compliance with section 177 and 188 of the Act and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) Internal Audit

- (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till the date, in determining the nature, timing and extent of our audit procedures.

(xv) Non-Cash transactions

In our opinion during the year, the company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) Section 45-IA of the Reserve Bank of India Act, 1934

- (a) In our opinion and according to the information and explanation given to us, the Company is registered under section 45-IA of Reserve Bank of India Act, 1934, and registration certificate for the same has been obtained.
- (b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial activities without valid Certificate of Registration from the Reserve Bank of India as per Reserve Bank of India Act, 1934.
- (c) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

(xvii) Cash Loss

The Company has incurred cash losses ₹ 333.96 lakhs during the financial year 2025-26 covered by our audit and ₹ 211.37 lakhs during the immediately preceding financial year.

(xviii) Resignation of Statutory Auditors

There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.

(xix) Ability to pay liabilities

On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) Corporate Social Responsibility – Unspent Amount

Based on our examination, the provision of section 135 is not applicable on the company, accordingly clauses 3(xx)(a) and 3(xx)(b) of the order are not applicable.

(xxi) Consolidated Financial Statement

The company is not required to prepare a consolidated financial statement hence the clause is not applicable.

2 Significant accounting policies and critical accounting estimate and judgments

2.1 Basis of preparation, measurement and significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1.1 Basis of Preparation of Financial Statements

(i) Compliance with Ind AS

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under Section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the updated Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time and other applicable RBI circulars/notifications. The Company uses accrual basis of accounting in preparation of financial statements (other than Statement of Cash Flows) except in case of significant uncertainties. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to the Act applicable for Non Banking Finance Companies ("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Division III to Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified accounting Standards. Any guidance / clarifications / notifications issued by the Reserve Bank of India (RBI) are implemented as and when issued / made applicable. The financial statements have been prepared on a going concern basis. The Company uses accrual basis of accounting except in case of significant uncertainties.

For all periods up to and including the year ended March 31, 2018, the Company had prepared its financial statements in accordance with accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 and the Companies (Accounting Standards) Amendment Rules, 2016 and the NBFC Master Directions (hereinafter referred as 'Previous GAAP'). The financial statements for the year ended March 31, 2019 were the first financial statements of the Company, which has been prepared in accordance with Ind AS and thereafter the financials are prepared as per IndAS norms.

(ii) Historical cost convention

The financial statements have been prepared under the historical cost convention, as modified by

- (i) certain financial assets and financial liabilities at fair value,
- (ii) assets held for sale measured at fair value less cost to sell, and
- (iii) defined benefit plans – plan assets that are measured at fair value.

(iii) Order of liquidity

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. Pursuant to Ind AS 1 - 'Presentation of Financial Statements' and amendment to Division III of Schedule III to the Companies Act, 2013 dated October 11, 2018, the Company presents its balance sheet in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in Note No. 30(II).

(iv) Compliance with RBI Master Direction

The Company complies in all material respects, with the prudential norms relating to income recognition, asset classification and provisioning for bad and doubtful debts and other matters, specified in the master directions issued by the Reserve Bank of India ("RBI") in terms of "Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 issued by the Reserve Bank of India ("RBI") vide their Notification No. RBI/DoR/2023 24/106 DoR.FIN.REC.No.45/03.10.119/2023-24 dated October 19, 2023 (the "Notification")". Indian Accounting Standards and Guidance Notes issued by the Institute of Chartered Accountants of India (referred to in these Directions as "ICAI") shall be followed insofar as they are not inconsistent with any of these Directions.

Handwritten signatures of the directors and the auditor.

(v) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

The areas involving critical estimates or judgements are:

2.1.1A Estimation of fair value of unlisted securities :

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions, refer Note no 31

2.1.2 Effective interest rate method :

The Company recognizes interest income/expense using the effective interest rate, i.e., a rate that represents the best estimate of a constant rate of return over the expected life of the loans. The effective interest method also accounts for the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges). This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

2.1.3 Impairment of financial assets using the expected credit loss method :

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

The Company's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including the various formulae and the choice of inputs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL model
- It has been the Company's policy to regularly review its model in the context of actual loss experience and adjust when necessary.

In the absence of sufficient historical data specific to the Company, the current ECL estimation has been derived using industry benchmarking as a reasonable basis for determining expected credit losses across different portfolio stages.

2.1.4 Business model assessment :

Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) Test and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement considered by the Company in determining the business model including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held.

2.1.5 Provisions and contingent liabilities :

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.1.6 Revenue Recognition :

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the service rendered (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company applies the five-step approach for recognition of revenue:

1. Identification of contract(s) with customers;
2. Identification of the separate performance obligations in the contract;
3. Determination of transaction price;
4. Allocation of transaction price to the separate performance obligations; and
5. Recognition of revenue when (or as) each performance obligation is satisfied.

(i) Interest income

The Company recognizes interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognized at the contractual rate of interest. EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortized cost of a financial liability.

(ii) Loan processing fees and other operating income

Fees and commission incomes and expenses that are integral to the effective interest rate on a financial asset or liability are included in the effective interest rate. Fees and commission that are not integral to the effective interest rate are recognized on accrual basis over the life of the loan. Other operating income i.e. Foreclosure, Bounce Charges and Loan Re-schedulement Charges are accounted on cash basis.

(iii) Income from investments

Profit / (Loss) earned from sale of investments is recognized on trade date basis net off expenses incurred on sale. The cost of investment is computed based on FIFO (First-In, First-Out) .

(iv) Dividend income

Dividend income is recognized in the statement of profit or loss on the date that the Company's right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

2.1.7 Foreign currency translation :

(i) Functional and presentation currency

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is functional and presentation currency of the Company.

2.1.8 Financial instruments :

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition of a financial asset, the Company determines whether newly recognized financial assets are part of an existing business model or whether they reflect a new business model. The Group reassesses its business model at each reporting period to determine whether the business model has changed since the previous period.

Based on this assessment and future business plans of the Group, the management has measured its financial assets at amortised cost as the asset is held within a business model whose objective is to collect contractual cash flows, and the contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.

b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Company revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

2.1.9 Financial assets :

(i) Classification and subsequent measurement

The Company has applied Ind AS 109 - "Financial Instruments" and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortized cost.

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

The classification requirements for debt and equity instruments are described below:

Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans, government and corporate bonds and trade receivables.

Classification and subsequent measurement of debt instruments depend on:

- (i) the Company's business model for managing the asset; and
- (ii) the cash flow characteristics of the asset.

Based on these factors, the Company classifies its debt instruments into one of the following three measurement categories:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at FVPL, are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured. Interest income from these financial assets is recognized using the effective interest rate method.

Fair value through other comprehensive income: Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortized cost which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss in the period in which it arises, unless it arises from debt instruments that were designated at fair value or which are not held for trading. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Fair value option for financial assets: The Company may also irrevocably designate financial assets at fair value through profit or loss if doing so significantly reduces or eliminates an accounting mismatch created by assets and liabilities being measured on different bases.

Business model: The business model reflects how the Company manages the assets in order to generate cash flows. That is, whether the Company's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL. Factors considered by the Company in determining the business model for a Company of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the 'other' business model and measured at FVPL.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Re-classification: The Company reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Equity instruments:

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in net gain/loss on fair value changes in the statement of profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Gains and losses on equity investments at FVPL are included in the statement of profit or loss.

(ii) Impairment

ECL are recognized for financial assets held under amortized cost. The Company follows 'simplified approach' for recognition of impairment loss allowance on loans which contain a financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Without significant increase in credit risk since initial recognition (stage 1)

ECL resulting from default events that are possible in the next 12 months are recognized for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioural trends witnessed for each homogenous portfolio using application/behavioral score cards and other performance indicators, determined statistically.

(b) Significant increase in credit risk (stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. However, unless identified at an earlier stage, 30 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 30 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioural trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioural trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

(c) Credit impaired (stage 3)

The Company recognizes a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans, where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower, are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months- post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default be done for such loans.

Interest income is recognized by applying the EIR to the net amortized cost amount i.e. gross carrying amount less ECL allowance.

(iii) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro economic factors.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

- Determination of PD is covered above for each stages of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realized and the time value of money.

(iv) Modification of loans

The Company sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Company assesses whether or not the new terms are substantially different to the original terms. The Company does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Company de-recognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Company also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognized in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Company recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in the statement of profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

(v) Derecognition other than on a modification

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Company transfers substantially all the risks and rewards of ownership, or (ii) the Company neither transfers nor retains substantially all the risks and rewards of ownership and the Company has not retained control. The Company directly reduces the gross carrying amount of a financial asset when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof.

The Company enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Company:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets;
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

Collateral (shares and bonds) furnished by the Company under standard repurchase agreements and securities lending and borrowing transactions are not de-recognized because the Company retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met. This also applies to certain securitization transactions in which the Company retains a subordinated residual interest.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

2.1.10 Financial Liabilities :

(i) Classification and subsequent measurement

In both the current and prior period, financial liabilities are classified as subsequently measured at amortized cost, except for:

(a) Financial liabilities at fair value through profit or loss: this classification is applied to derivatives, financial liabilities held for trading and other financial liabilities designated as such at initial recognition. Gains or losses on financial liabilities designated at fair value through profit or loss are presented partially in other comprehensive income (the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, which is determined as the amount that is not attributable to changes in market conditions that give rise to market risk) and partially profit or loss (the remaining amount of change in the fair value of the liability). This is unless such a presentation would create, or enlarge, an accounting mismatch, in which case the gains and losses attributable to changes in the credit risk of the liability are also presented in profit or loss;

(b) Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition, whereby a financial liability is recognized for the consideration received for the transfer. In subsequent periods, the Company recognizes any expense incurred on the financial liability; and

(c) Financial guarantee contracts and loan commitments.

See accompanying notes to the financial statements '1 to 59'

Financial liabilities are derecognized when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expires).

The exchange between the Company and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognized as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortized over the remaining term of the modified liability.

2.1.11 Financial guarantee contracts and loan commitments :

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

(a) The amount of the loss allowance ; or

(b) The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

Loan commitments provided by the Company are measured as the amount of the loss allowance.

For loan commitments and financial guarantee contracts, the loss allowance is recognized as a provision. However, for contracts that include both a loan and an undrawn commitment and the Company cannot separately identify the expected credit losses on the undrawn commitment component from those on the loan component, the expected credit losses on the undrawn commitment are recognized together with the loss allowance for the loan. To the extent that the combined expected credit losses exceed the gross carrying amount of the loan, the expected credit losses are recognized as a provision.

Repossession collateral represents financial and non-financial assets acquired by the Company in settlement of overdue loans. The assets are initially recognized at fair value when acquired and included in premises and equipment, other financial assets, investment properties or inventories within other assets depending on their nature and the Company's intention in respect of recovery of these assets, and are subsequently remeasured and accounted for in accordance with the accounting policies for these categories of assets.

2.1.12 Segment Reporting :

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The power to assess the financial performance and position of the Company and make strategic decisions is vested in the executive director who has been identified as the chief operating decisions maker.

The Company is mainly engaged in the commercial finance business and all other activities revolve around the main business of the Company. Further, all activities are conducted within India and as such there is no separate reportable segment as specified in Ind AS 108 on 'Operating Segment'.

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

2.1.13 Income Tax :

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current Taxes

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred Taxes

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates and interest in joint arrangements where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. To determine the future taxable profits, reference is made to the latest available profit forecasts. Where the temporary differences are related to losses, relevant tax law is considered to determine the availability of the losses to offset against the future taxable profits. Recognition therefore involves judgement regarding the future financial performance of the particular legal entity or tax group in which the deferred tax asset has been recognized.

2.1.14 Off-setting financial instruments :

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.1.15 Cash and cash equivalents :

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in liabilities in the balance sheet.

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

2.1.16 Property, plant and equipment :

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 01, 2017 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives & residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term as follows:

The estimated useful lives for the different types of assets are:

Asset	Useful Life (Years)
Furniture and fixtures	10 years
Office equipment	5 years
Computers	3 years
Buildings	60 years

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term.

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule III to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit or loss.

2.1.17 Intangible assets :

(i) Intangibles Assets

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Company amortizes intangible assets on a straight-line basis over the useful lives of the assets commencing from the month in which the asset is first put to use. The Company provides pro-rata depreciation from the day the asset is put to use.

The estimated useful lives for the different types of assets are:

Asset	Useful Life (Years)
Computer software	3 years

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognized as at April 1, 2017 measured as per the previous GAAP and use that carrying values the deemed cost of intangible assets.

2.1.18 Borrowing Cost :

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are expensed in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

2.1.19 1. Provisions :

Provisions for restructuring are recognized by the Company when it has developed a detailed formal plan for restructuring and has raised a valid expectation in those affected that the Company will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

The measurement of provision for restructuring includes only direct expenditures arising from the restructuring, which are both necessarily entailed by the restructuring and not associated with the ongoing activities of the company.

2. Fees and commission expense :

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges, fees paid under guarantee scheme and fees payable for management of portfolio etc., are recognized in the Statement of Profit and Loss on an accrual basis.

3. Other expenses

Expenses are recognized on accrual basis net of the goods and services tax, except where credit for the input tax is not statutorily permitted.

2.1.20 Employee benefits :

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

2.1.21 Earning Per Shares :

a) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year and excluding treasury shares if any (Note No.18).

b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

2.1.22 Leases

The Company's leases primarily consists of leases for Building and office premises .The company assesses whether a contract contains a lease , at the inception of a contract. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration. To assess whether a

contract conveys the right to control the use of an identified asset, the company assesses whether (i) the contract involves the use of an identified asset (ii) the company has substantially all of the economic benefits from the use of the asset through out the period of lease and (iii) the company has the right to direct the use of asset.

Measurement and recognition

At lease commencement date, the Company recognises a **Right-of-use asset** and a **Lease liability** on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date .

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or at the incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

2.1.23 Rounding of amounts :

All amounts disclosed in the financial statements and notes have been rounded off to the nearest crores as per the requirements of Schedule III, unless otherwise stated.

2.2 Critical accounting estimates and judgements:

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

2.3 Retirement and other employee benefits :

2.3.I Short term employee benefit

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include short term compensated absences such as paid annual leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period. Benefits such as salaries and wages, etc. and the expected cost of the bonus/ ex-gratia are recognized in the period in which the employee renders the related service.

2.3.11 Post-employment employee benefits :**(i) Defined benefit plans**

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under The Payment of Gratuity Act, 1972. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined

benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Defined benefit plans may be unfunded, or they may be wholly or partly funded by contributions by the Company, into an entity, or fund from which the employee benefits are paid. The Company is liable to make differential payment for any shortfall between defined benefit payments and the contribution made by the Company.

(ii) Defined contribution plans :

Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity and will have no legal or constructive

obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The Company contributes into following schemes under defined contribution plans:

Superannuation

Defined contribution to superannuation fund is made as per the scheme of the Company.

Provident fund

Each eligible employee and the Company make contribution at a percentage of the basic salary specified under the Employee Provident Funds and Miscellaneous Provisions Act, 1952. The Company recognises contributions payable to the Provident fund scheme as an expenditure when the employees render the related service. The Company has no further obligations under the plan beyond its periodic contributions.

(iii) Compensated absences

Privilege leave entitlements are recognized as a liability as per the rules of the Company. The liability for accumulated leaves which can be availed and/or encashed at any time during the tenure of employment is recognized using the projected unit credit method at the actuarially determined value by an appointed actuary. The liability for accumulated leaves which is eligible for encashment within the same calendar year is provided for at prevailing salary rate for the entire unavailed leave balance as at the Balance Sheet date. Remeasurements on defined benefit plans, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets, are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods

2.4 Determination of fair value:

The Company measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received in sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

FYNX CAPITAL LIMITED (FORMERLY KNOWN AS RAJATH FINANCE LIMITED)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Fair value measurement under Ind AS 113 are categorised into level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are as follows :

Level 1 Inputs

Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 Inputs

Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data for substantially the full term of the asset or liability.

Level 3 Inputs

Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

30.1 Risk management objectives and policies

(i) Risk Management Framework

A summary of the major risks faced by the Company, its measurement monitoring and management are described as under:

Nature of Risk	Arising from	Executive governance structure	Measurement, monitoring and management of risk
Liquidity and funding risk	Liquidity risk arises from mismatches in the timing of cash flows. Funding risk arises: (i) when long term assets cannot be funded at the expected term resulting in cashflow mismatches; (ii) amidst volatile market conditions impacting sourcing of funds from banks and money markets	Board appointed Asset Liability Committee (ALCO)	Liquidity and funding risk is: (i) measured by identifying gaps in the structural and dynamic liquidity statements. (ii) monitored by - assessment of the gap between visibility of funds and the near term liabilities given current liquidity conditions and evolving regulatory directions for NBFCs - a constant calibration of sources of funds in line with emerging market conditions in banking and money markets. - periodic reviews by ALCO relating to the liquidity position and stress tests assuming varied 'what if' scenarios and comparing probable gaps with the liquidity buffers maintained by the Company. (iii) managed by the Company's treasury team under the guidance of ALCO. (iv) The Company's ALCO monitors asset liability mismatches to ensure that there are no imbalances or excessive concentrations on either side of the Balance Sheet. (v) The Company continuously monitors liquidity in the market; and as a part of its ALCO strategy.
Interest rate risk	Interest rate risk streams from movements in market factors, such as interest rates, credit spreads which impacts investments, income and the value of portfolios.	Board appointed Asset Liability Committee (ALCO)	Interest rate risk is: (i) monitored by assessment of probable impacts of interest rate sensitivities under simulated stress test scenarios given range of probable interest rate movements on both fixed and floating assets and liabilities. (ii) managed by the Company's treasury team under the guidance of ALCO.
Market Risk	Changes in the market variables		Market risk is : The risk that the fair value of future cash flow of financial instruments will fluctuate due to changes in the market variables such as interest rates, foreign exchange rates and equity prices. The Company do not have any exposure to foreign exchange rate and equity price risk.
Credit risk	Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Company	Board appointed Risk Management Committee	Credit risk is: (i) measured as the amount at risk due to repayment default of a customer or counterparty to the Company. Various metrics such as EMI default rate, overdue position, collection efficiency, customers non performing loans etc. are used as leading indicators to assess credit risk. (ii) monitored by Risk Management Committee using level of credit exposures, portfolio monitoring, geographic, customer and portfolio concentration risks. (iii) managed by a robust control framework by the risk department which continuously align credit policies and reviews of portfolios and delinquencies by senior and middle Management team comprising of risk, analytics, collection and fraud containment along with business. The same is periodically reviewed by the Board appointed Risk Management Committee

H. Qualitative disclosures

Gratuity is a defined benefit plan and company is exposed to the Following Risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision requiring higher provision.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Company has to manage pay-out based on pay as you go basis from own funds.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Impacts for FY 2024-25 and OCI Impact in FY 2025-26 : During the current financial year, the Company has introduced gratuity, leave encashment, and other employee benefit schemes for the first time. Accordingly, there are no comparative figures available for the previous financial year (FY 2024-25). Further, as these obligations have been recognised during the current year without any prior period balances, there is no impact on Other Comprehensive Income (OCI) as at March 31, 2026.

30.V Capital

The Company actively manages its capital base to cover risks inherent to its business and meets the capital adequacy requirements of the regulator Reserve Bank of India. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

(i) Capital management

Objective :- The Company's objective is to maintain appropriate levels of capital to support its business strategy taking into account the regulatory, economic and commercial environment. The Company aims to maintain a strong capital base to support the risks inherent to its business and its growth strategy. The Company endeavors to maintain a higher capital base than the mandated regulatory capital at all times.

Planning :-

The Company's assessment of capital requirement is aligned to its planned growth which forms part of an annual operating plan which is approved by the Board and also a long range strategy. These growth plans are aligned to assessment of risks- which include credit, liquidity and interest rate.

The Company monitors its capital adequacy ratio (CRAR) on a monthly basis through its assets liability management committee (ALCO).

The Company maintains its capital structure in line with the economic conditions and the risk characteristics of its activities and the board reviews the capital position on a regular basis.

31 Fair values

a) Financial instruments - fair value and risk management

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

Valuation methodologies adopted

Fair values of financial assets, other than those which are subsequently measured at amortized cost, have been arrived at as under:

- (i) Fair values of investments held for trading under FVTPL have been determined under level 1 using quoted market prices of the underlying instruments;
- (ii) Fair values of strategic investments in equity instruments designated under FVOCI have been measured under level 3 at fair value based on a discounted cash flow model.
- (iii) Fair values of other investments under FVOCI have been determined under level 1 using quoted market prices of the underlying instruments;
- (iv) Fair value of loans held under a business model that is achieved by both collecting contractual cash flows and partially selling the loans through partial assignment to willing buyers and which contain contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest are measured at FVOCI. The fair value of these loans have been determined under level 3.

The Company has determined that the carrying values of cash and cash equivalents, bank balances, trade receivables, short term loans, floating rate loans, investments in equity instruments designated at FVOCI, trade payables, short term debts, borrowings, bank overdrafts and other current liabilities are a reasonable approximation of their fair value and hence their carrying value are deemed to be fair value.

b) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognized and measured at fair value and
- (b) measured at amortized cost and for which fair values are disclosed in the financial statements

The Company determines fair values of its financial instruments according to the following hierarchy:

Level 1: valuation based on quoted market price: financial instruments with quoted prices for identical instruments in active markets that the Company can access at the measurement date.

Level 2: valuation based on using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

Level 3: valuation technique with significant unobservable inputs: - financial instruments valued using valuation techniques where one or more significant inputs are unobservable. Equity investments designated under FVOCI has been valued using discounted cash flow method.

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- Listed equity investments (other than subsidiaries and associates - Quoted bid price on stock exchange)
- Mutual fund - net asset value of the scheme
- Debentures or bonds - based on market yield for instruments with similar risk / maturity, etc.
- Private equity investment fund and Unlisted shares - price to book value method and Comparable company analysis
- Other financial instruments - discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk or Comparable company analysis

All resulting fair value measurements have been classified under Level 2 of the fair value hierarchy, except for unlisted equity securities, contingent consideration receivable, and certain derivative contracts. The fair values of these instruments have been determined using valuation techniques such as discounted cash flow models and comparable company analysis. In cases where observable market data is not available, particularly for Investments into unlisted equity instruments, management has used relevant financial information of comparable companies and adjusted it appropriately to reflect the specific characteristics and risks of the investee entity. Based on best management judgements fair value measurements have been classified under level 3 based on change in assumptions.

The fair values for loans were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

The fair values of debt securities, borrowing other than debt securities, subordinate liability are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

b) Financial Risk Management - Expected credit loss ("ECL"):

ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components: a. probability of default ("PD") b. Loss given default ("LGD") c. Exposure at default ("EAD")

Probability of Default (PD) is likelihood that an obligor will default on its obligation in the future. A default may happen at a certain time over the assessed period, if the facility has not been previously de recognized and is still in Portfolio

Loss Given default (LGD) is an estimate of the loss from a transaction given that a default occurs. Under Ind AS 109, lifetime LGD's are defined as a collection of LGD's estimates applicable to different future periods. Various approaches are available to compute the LGD. Considering the low expertise in default and recovery, the Company has considered an LGD of 65% as recommended by the Foundation Internal Ratings Based (FIRB) approach under Basel II guidelines issued by RBI.

Exposure at default (EAD) : As per Ind AS 109, EAD is estimation of the extent to which the financial entity may be exposed to counterparty in the event of default and at the time of counterparty's default. The Company has modelled EAD based on the contractual and behavioral cash flows till the lifetime of the loans considering the expected prepayments. The Company has considered expected cash flows, undrawn exposures and second loss credit enhancement (SLCE) for all the loans at DPD bucket level for each of the risk segments, which was used for computation of ECL. Moreover, the EAD comprised of principal component, accrued interest and also the future Since the company's Loan Portfolio in the past was limited and small, at present the company does not have sufficient internal data for computation of PD for different stages and LGD. Hence the company has relied on data used by certain other NBFC's and Industry data as reference for the calculations. Based on the above data, RBI norms and requirements and internal assessment, the company has at present determined blanket ECL provisioning at 0.275% and 0.575% for Stage 1, 29.178% for Stage 2 and 74.722% for Stage 3 Loan assets. There is an Management overlay created for Stage1 Loan assets based on the management judgement based on an specific case. This amounts to ~INR 15.5 Lakhs respectively.

ECL computation: Conditional ECL at DPD pool level was computed with the following method: $ECL \text{ for year} = EAD * PD * LGD$
The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarized below:

Particulars	Provisions	As at March 31, 2026	As at March 31, 2025
